Wisconsin Industry Sector Net Job Gain/Loss

Feb. 2009 Compared to Feb. 2008

Source: DWD, DET, LMI Section, Current Employment Statistics

January 2009 Distress Quotient

Measures relative change over time in utilization of unemployment insurance (UI) by county's total labor force. Quotients calculation: percent of labor force in January 2009 utilizing UI divided by the percent utilizing it in January 2008.

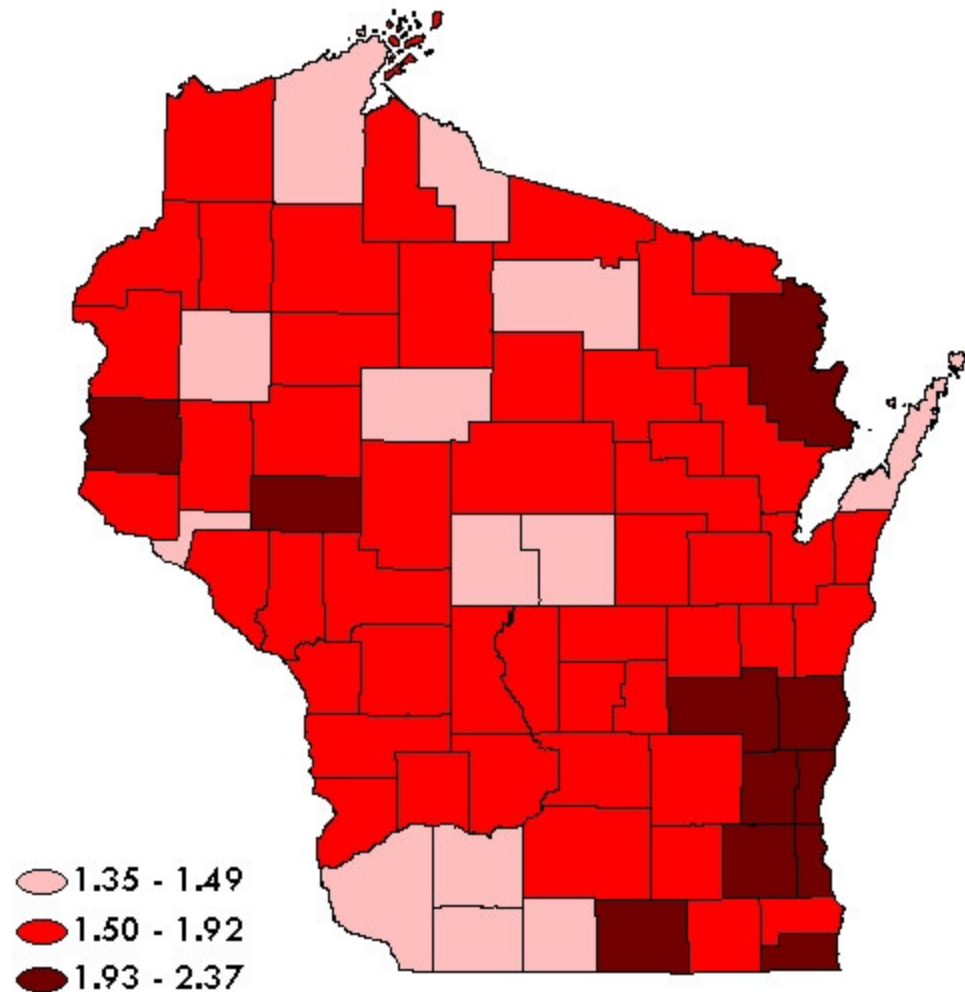

A quotient of 1.0 indicates no change in utilization annually. Quotients higher than 1.0 indicate increased usage annually in the county.

Note: high quotients represent a high degree of *change* in utilization and not always high degree of UI usage in and of itself.

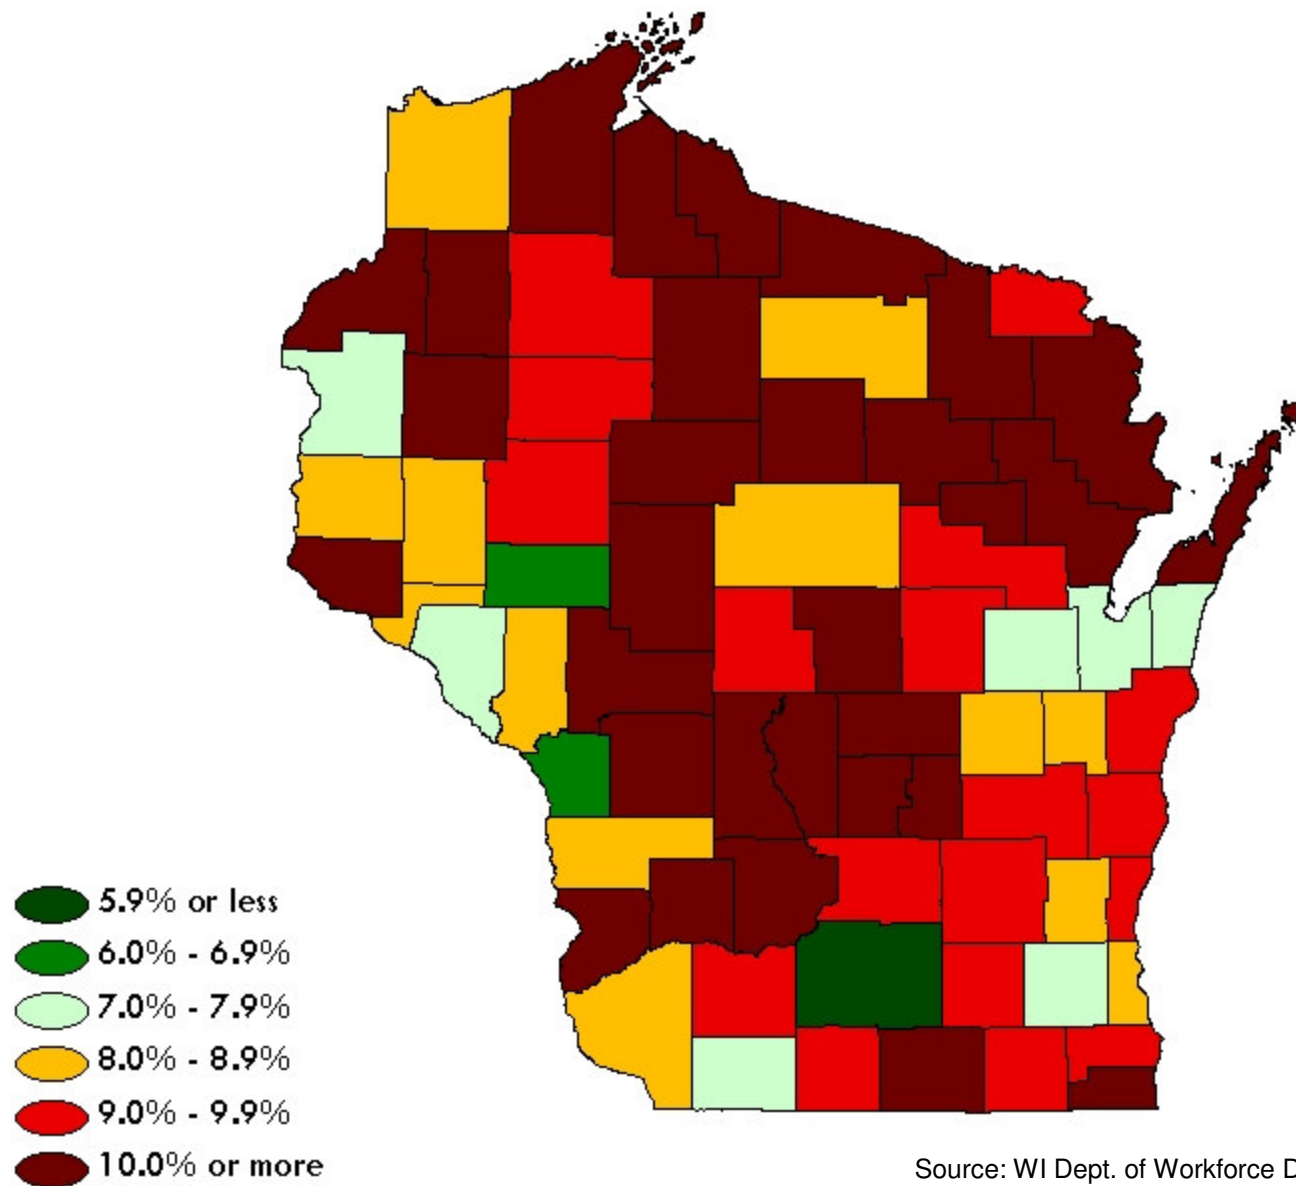

The pink colored counties represent the lower tier of increase in UI activity.

The red colored counties are within range of the statewide quotient or show moderate change (WI quotient equals 1.81)

The dark red colored counties represent the highest tier of change experiencing atypical UI utilization.

Selected Apprenticeship Programs Potentially Utilized by Weatherization Projects

Apprenticeship Programs

Carpenter	Sheet Metal Worker
Construction Craft Laborer	Steamfitter
Environmental Systems Technician	Assembler Construction Equipment
Glazier	Building Services (Ind. Maint.)
Heating, Ventilating and A/C Install/Service	Inspector
Heavy Equipment Operator	Metal Fabricator
Insulation Worker (Heat & Frost)	Metal Model Maker
Iron Worker	Model Maker
Ironworker (Assembler, Metal Buildings)	Mold Designer
Operating Engineer	Test Equipment Technician
Pipefitter(HVAC)	Tool Designer
Plasterer	Tool Maker
Plumber	Roofer and Waterproofer
